

Designing and Implementing M&E Systems: Two African Experiences

Heather Buchanan & Gerry Cooney

13 February 2007

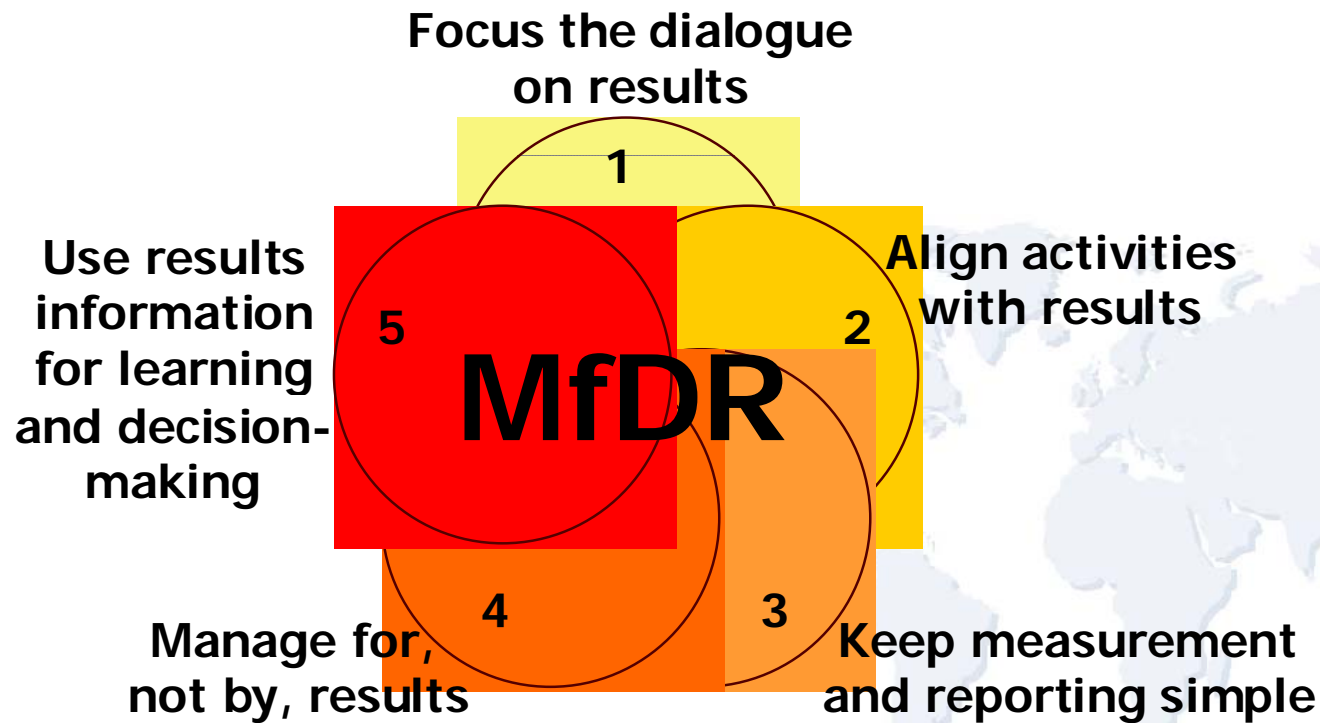

- **Context**
- **Project design**
- **Diagnostic phase**
- **Performance measurement design**
- **Performance measurement implementation**
- **Open discussion**

- **Africa**
- **Clients**
 - A Regional initiative and an IFI
 - Complexity
 - Diversity
 - Urgency
- **MfDR: Managing for Developmental Results**
 - Rist & Kusek's Ten Steps to a Results-Based Monitoring and Evaluation System

MfDR Principles

Project Design

- **Managing expectations**
- **Scoping and contextualising the assignment**
- **Relationship building**

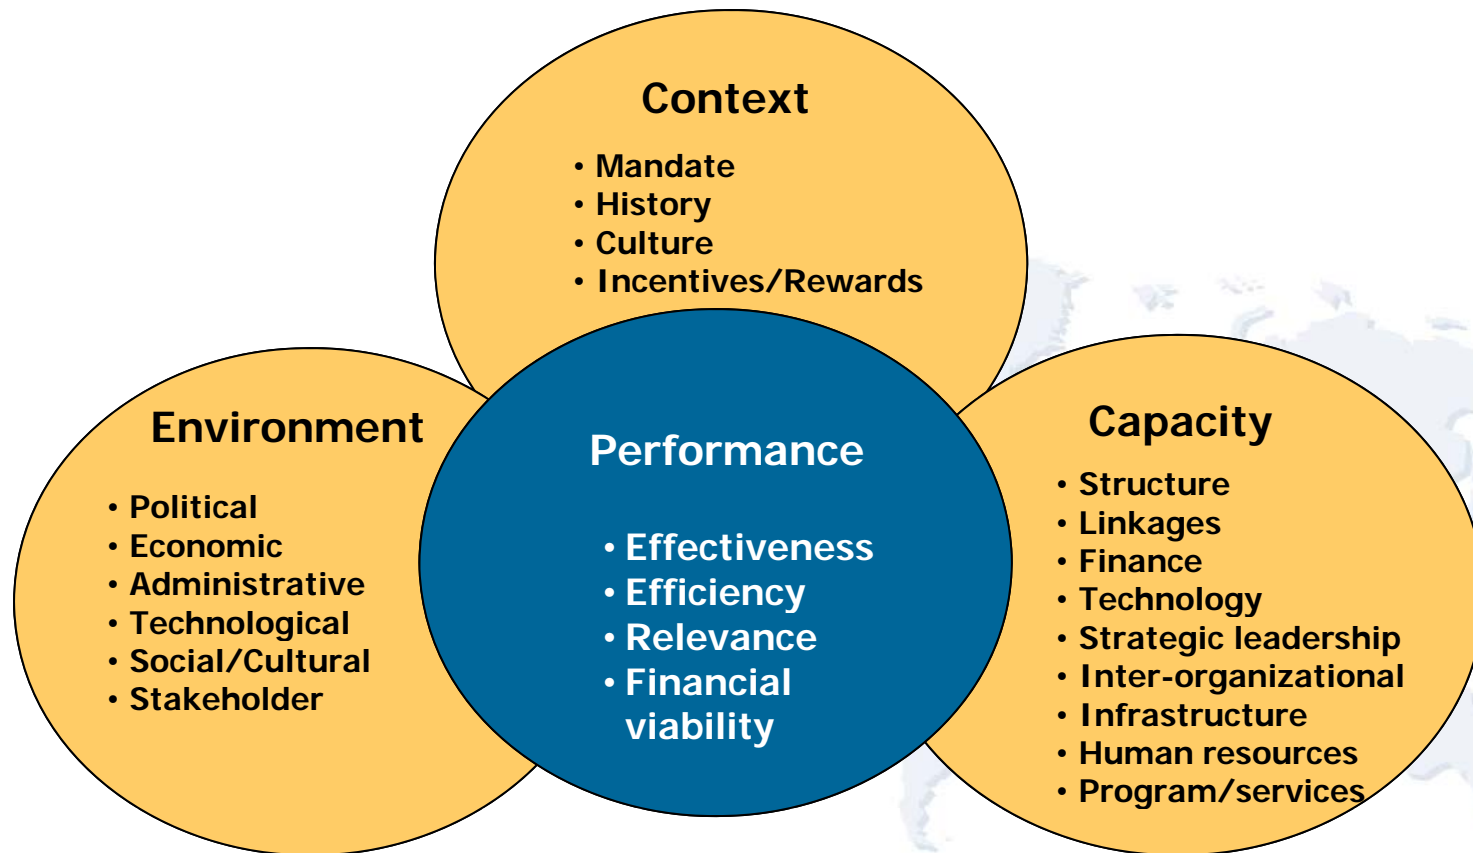

Diagnostic Phase

- **Readiness Assessment**
 - External and internal contextual assessment
 - Capacity assessment
- **Indicative action plan for the establishment of a results-based M&E system**

Readiness Assessment

Diagnostic Phase

- **What worked well ...**
 - Language and concepts
 - Two-way learning
 - Stakeholder buy-in
 - Strong foundation

Diagnostic Phase

- **Challenges**
 - Reigning in expectations
 - Real vs. perceived capacities

Performance Measurement Design

- **M&E conceptual framework**
 - Agreement on outcomes
 - Selection of key indicators and targets
 - Collection of baseline data
- **Roles and process definition**
- **Tools, guides, templates**
- **Training design**

Performance Measurement Design

- **What worked well ...**
 - Iterative processes
 - **Highly participatory**
 - **Senior management support**
 - **Building horizontal and vertical linkages**

Performance Measurement Design

- **Challenges**

- **Conceptual framework revisions**
- **Quantitative / qualitative tensions**
- **Developing common language and understanding of M&E**

Performance Measurement Implementation

- **Implementation Strategy**
 - Change management
 - Develop internal capacities
 - Systems development
 - Fine tuning

Performance Measurement Implementation

- **What worked well ...**
 - **Indications of ownership & leadership**
 - **Executive support and champions**
 - **Building local capacities**
 - **Managing for results**

Performance Measurement Implementation

- **Challenges**
 - **Managing cost-effectiveness**
 - **Engaging everyone**
 - **Time and effort**
 - **Cultural differences**

What Next?

- **Questions? Comments? Suggestions?**
 - How do our experiences compare to yours?
- **Thank you!**
